About Me:

I am excited to be joining the Junior High faculty for the 2022-2023 school year. Although this will be my FIRST year in Dawson County, it is my 24th year overall. I graduated with a bachelor's degree in special education from Troy University (Troy, AL). During the pandemic, I earned a master's degree in secondary special education & transition from the University of Kansas (Lawrence, KS). Previously, I taught special education in the Fulton County School System for nearly two decades and I taught in a private school for 2 years. I am enthusiastic and dedicated to positive outcomes for all learners.

I have a wonderfully supportive husband and two sons (ages 16 & 17) who attend high school in a neighboring district. We also have two big, playful pups, Cinder & Rex.

We enjoy living in this growing community.

I am excited to partner with you to help make this school year amazing!
